

MORNING WORK TUBS

BEGINNING OF THE YEAR

Why morning work tubs?

If the start of your school day is as crazy as mine, I know how stressful it can be! Between parents who have questions, students who need immediate attention, or a call from the front office, it's hard to split your attention in 5 different ways AND still be in charge of your class! That's where Morning Work Tubs come in! Teach your students first thing in the morning to hang their backpacks, put their lunchbox away, and grab a morning tub! The management is up to you, whether you want to assign partners to specific tubs or let your students choose. All the skills are perfect for beginning of the year kindergarteners and they can work on everything independently, giving you time to focus your attention on other needs!

WHAT'S INCLUDED?
