

SIGHT WORD

builders

PRE PRIMER

Directions

Sight Word Builders are a fun way for your students to practice their sight words. Each student will need one recording sheet and one group of letter cards (I included 3 of the same set of letter cards on a page to conserve paper).

Your students will cut out all the letter cards, then glue them in the boxes next to the sight word.

After they build the word, they can either write the word on the line, or use the word in a sentence. You can choose what you think your students will benefit from! {just a note: the words "where" and "in" are included in two sets}
