read *and* REVEAL

sight words

To set up:

Print the cards on cardstock and laminate for durability. Cut the cards apart on the solid lines and fold on the dashed lines to hide the word. You can use a clothespin, paperclip or even a piece of Velcro to secure the flap.

To use:

After choosing a card, have your students look at the pictures and figure out the beginning sound for each picture. You can have them use magnet letters or a dry erase marker to record the beginning sounds. Once they have figured out each sound, they will read the sight word they decoded. Finally, they will remove the clip and reveal the word!
