Stamping Sight Word Booklets

These little booklets are a great way to incorporate those tricky sight words that your students need lots of practice with. Just print off both pages, cut them on the lines and staple them into little books! Have your students use alphabet stamps to complete each sentence.

{You can find stamps at your local craft store, Lakeshore Learning or Amazon.com. The stamps I use are about a one inch square.} After they stamp, they can color the pictures and practice reading each page.

am

HERE I AM!

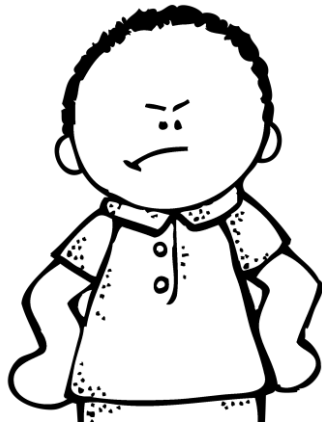

By: _____

Today, I happy!

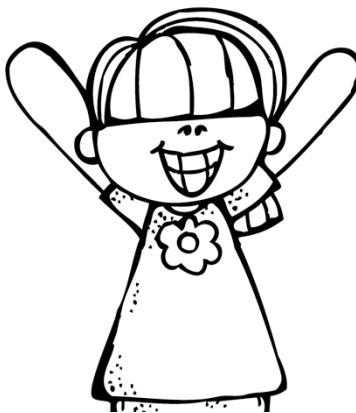

Today, I sad.

Today, I angry!

Today, I proud!

Here I today!
