CALENDAR MATH FIRST GRADE SKILLS

monthly differentiated pages

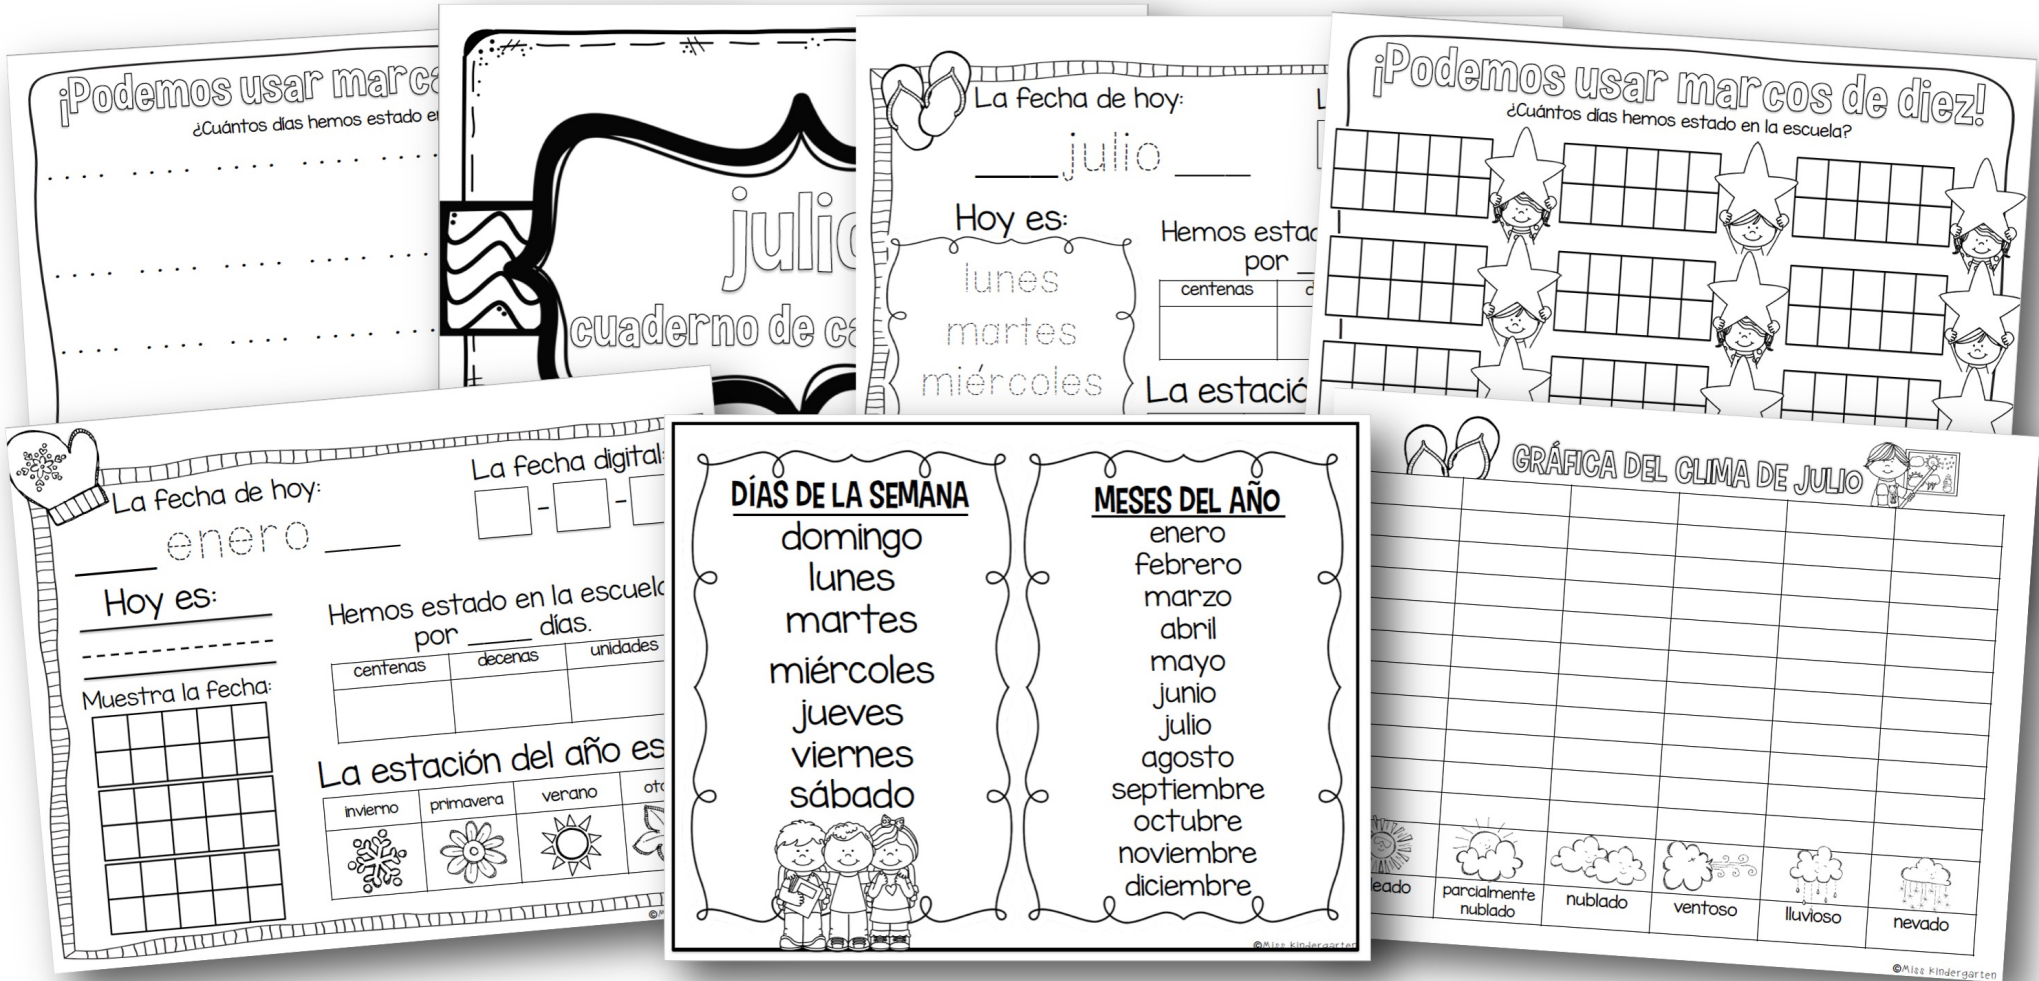

The image displays five sample pages from a first-grade calendar math notebook. The pages are arranged in an overlapping fashion, showing different months and math activities. The top row includes pages for September, November, and January. The bottom row includes pages for May and an unlabeled page. Each page features a 'Today's date' section, a 'Digital date' section, and a 'Number of the Day' section with tens and ones blocks. The pages also include 'We have been in school for ___ days', 'Incredible Equations', and various math activities like expanded notation, 2D/3D shapes, and related facts. The January page is labeled 'example page' and shows the number 17 with its expanded notation $10 + 7 = 17$ and skip counting by fives: 22, 27, 32. The May page is also labeled 'example page' and shows the number 6 with its faces and edges: 6 faces, 12 edges.
