

# NUMBER SENSE TASK CARDS

*engaging hands-on centers*

A collection of educational materials is arranged on a light-colored wooden surface. In the upper left, a yellow plastic tray holds a task card featuring a cartoon bear holding a sign with the number 3, and a ten-frame with three green circular counters. Below this, a pile of colorful circular counters in shades of pink, yellow, blue, and green is scattered. In the lower center, another task card shows a cartoon bear holding a sign with the number 10, with a ten-frame below it containing ten colorful circular counters. A pink plastic tool, possibly a tongs or a stirrer, lies diagonally across the middle of the scene.

**Fine Motor**

**Low Prep**

**Hands-on Fun**

**Numbers up to 20**

**And MORE!**

# NUMBER FORMATION PRACTICE

*build and trace numbers*

**Students work on developing fine motor strength through number formation, building, and tracing numbers 0-20.**
